KARINA SIDE CONFERENCE CHAIR

Inspired by the mid-20th century designs of modern Danish icons, Glyn Peter Machin has created the Karina series. Beautiful organic forms combined with superior craftsmanship update the essence of Scandinavian furniture design. Karina side conference chairs are complemented by lounge seating and occasional tables.

3263-10 Finished in Caramel on white oak, the Karina chair with arms epitomizes the clean lines and curvaceous forms from the Danish modern era.

3263-10 Designed to withstand the rigors of high use environments, Karina's open back design provides the perfect solution for wipe-out maintenance and features a wall-saver leg design. The upholstered seat has an optional moisture barrier application. The side view of the chair further details the carefully shaped components. Upholstered in Heartfelt from HBF Textiles and finished in Mocha on white oak.

Design elements of Karina seem to flow effortlessly from leg to arm to back rest, making each chair appear to be a single molded entity – strong yet almost weightless.
